DEAN MUNRO

PERSONAL STATEMENT:

Having completed 2 years at college studying television and now entering my 3rd year of the BA (Hons) Film course at Edinburgh Napier University, I have collaborated on various independent project's, where learning the creative and technological complexities of motion-picture camera's are at the heart of my fascination. My achievements and failures throughout my studies and employment shape me into a conscientious, dependable and grounded worker, now ready to demonstrate this within a camera team. Currently, I am looking for opportunities to progress as a camera or video trainee to continue learning and develop within the camera department.
